

To the EAA Chapter 1099,

I would like to thank the generous members of the Chapter for giving me the opportunity to attend the Air Academy this year. I really appreciate the time and funds that were given to help send me to Osh Kosh.

The classes and workshops here have given me a greater insight into what it takes to build, maintain, and fly an aircraft. Before some of the classes, such as the welding, I believed that the goal of building an airplane was out of my reach. However I have come to realize that it is achievable. The instructors and counselors all have a wealth of knowledge and a love of flying that has inspired me to learn more about the field of aviation. I was especially impressed by the quality of the classes and by the wide range of subjects we were able to learn about. Once again I greatly appreciate all that you have done to send me to this amazing opportunity.

Sincerely,

Josh M. Penny
